

SHIFT TO STRATIX 2500 PHASE 3.0

WINTER 2021

December 13
MIDLAND, MI

DETAILS

Kendall Electric
3240 Schuette Road
Midland, MI 48642

9:00am - 4:30pm

LUNCH PROVIDED

INTRODUCTION TO STRATIX 2500

This instructor-led training will review why the Stratix 2500 is an ideal match for end users and machine builders interested in managing features at optimum cost. We will review the needs of switches today, what differentiates a lightly managed switch, and include hands-on training to review most Stratix 2500 functionality.

Topics Covered*

- Networks and Hosts Discussion
- Switches and Hubs Discussion
- Express Setup (Button, Mode, Config) Lab
- Smart Ports, Port Settings, and Ethernet Channels Labs
- VLANs Discussion and Lab
- Save and Load Configuration File

**See side 2 matrix for full list of topics*

About the Instructor:

Roy Radziszewski is an automation and networks instructor. He teaches courses covering various types of Allen Bradley™ AC variable frequency drives, small and medium range PLCs, PanelView graphic terminals, and Networks (including Stratix switches).

During Roy's career he has started-up, serviced and designed control systems, and has deployed thousands of drives for all types of industrial manufacturing applications.

Roy holds an electrical engineering degree from The Milwaukee School of Engineering and an MBA from the University of Houston. In addition, he holds programming certificates (C, C#, Android, and real-time embedded systems) from the University of Washington and University of California, Irvine. Roy is currently working on his CCNA Certification through Cisco.

Limited Seating - maximum 8 stations/students

REGISTRATION INFORMATION:

Cost: \$1,095 per student / per day

Register at: keinc.info/KCT
